SWAYAM PARMAR
Web Developer

Freshman Web Developer looking for an opportunity to use my programming knowledge and enthusiasm for building interesting, user-friendly websites. eager to contribute to a fun team and learn from real-world expertise.

Experience

Full Stack Developer

Enats Technology LLP.
2022 - Present
1. Utilized modern web technologies such as HTML, CSS, JavaScript, and AJAX to create responsive and dynamic user interfaces.
2. Developed and maintained web applications using Laravel framework and others frameworks, in both front-end and back-end development.
3. supported the team's culture of innovation and excellence by helping to improve development workflows and best practices on a constant basis.

Projects

Personal Portfolio Website

1. Made a responsive portfolio website with HTML, CSS, and JavaScript to display individual projects.
2. Added interactive elements and fluid animations to increase user engagement.

E - Commerce Website

1. Made a straightforward E-Commerce website with a modern and clean design using HTML, CSS, and PHP.
2. Added JavaScript to the website in order to add dynamic components like picture sliders and form validation.
3. To ensure cross-browser compatibility, many browsers were tested.
4. worked together with a group of developers to guarantee uniform functioning and design
